

Flooring Reimagined **Urban Mix Series**

Through the urban-inspired carpet design, for people to create a unique indoor space.
Let people in the busy life, can feel the charm and vitality of the city.
relax and enjoy life

Urban Mix Series uses soft shades of ash grey, beige, and charcoal to create a warm, modern look that adds depth without overwhelming your space. these carpets bring texture and movement that reflect natural growth ideal for workspaces focused on modern comfort.

To ensure the quality of the carpet, environmental protection, flame retardant, anti-static basic performance, carpet surface use of global nylon twist yarn, each yarn do anti-fouling treatment, ensure the yarn resilience and easy cleaning of each product. Use of environmentally friendly backing of FPE

The herringbone pattern in the Urban Mix series reflects the rhythm of architecture and the flow of urban life—bringing structure and movement to modern interiors.

Urban Mix 01

Urban Mix 02
Urban Mix 03

Abstract representative architectural elements of the urban landscape, modern high-rise buildings will be transformed into a carpet pattern and texture. Through the outline of lines, color collocation and material selection, showing the three-dimensional feeling and texture of the building. Imitate the appearance of the building modeling, for the space to add an artistic sense!

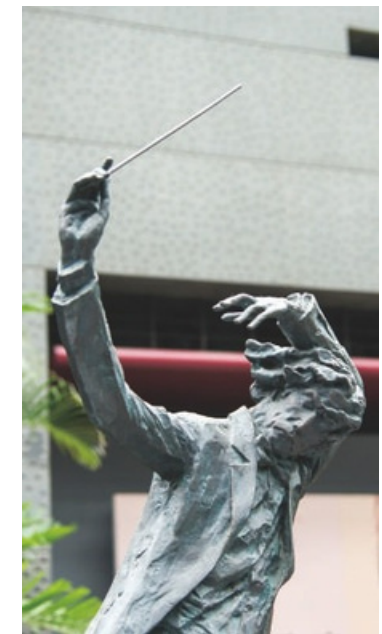

Urban Mix 03

Urban Mix 02

Urban areas are the crystallization of human civilization, full of rich color, texture, and story. From old buildings to modern skyscrapers, from busy streets to quiet parks, every corner of the urban landscape contains endless design inspiration.

Integration and innovation

Urban Mix 04 & 05

Urban Mix 04
